

Sadat Anam

Backend & DevOps Engineer · Full-Stack Operations

sadatanam@duck.com | Dhaka, Bangladesh | github.com/SadatanamAs | linkedin.com/in/sadatanam

PROFESSIONAL SUMMARY

Computer Science student at BRAC University with hands-on production experience as a backend and DevOps engineer. Focused on building resilient backend services, web and data-scraping pipelines, and the infrastructure that keeps them running. Comfortable across Python (FastAPI, Scrapy, Playwright), JavaScript / TypeScript (Node, Next.js, React), and Dart / Flutter. Looking for internship and entry-level roles where systems thinking and shipping cadence both matter.

EDUCATION

B.Sc. Computer Science & Engineering BRAC University · Dhaka, Bangladesh <i>In progress · Coursework: Operating Systems, Computer Architecture, Algorithms, Linear Algebra, Network Security</i>	2025 — Present
Higher Secondary Certificate (Science) Adamjee Cantonment College · Dhaka, Bangladesh <i>Completed</i>	2022 — 2024

TECHNICAL SKILLS

LANGUAGES

Python, TypeScript, JavaScript, Dart, Java, SQL, Bash, HTML / CSS

BACKEND & WEB

FastAPI, Node.js, Express, Next.js, ReactREST APIs, JSON, JWT / OAuth2 / Session auth

DATASTORES

PostgreSQL, MongoDB, Redis, SQLite, Supabase

DEVOPS & INFRASTRUCTURE

Docker, GitHub Actions, Nginx (reverse proxy), Linux (Debian / Ubuntu)CI / CD pipelines, Bash scripting

HOSTING

DigitalOcean, OVHCloud, KVM VPS, VercelServer deployment & monitoring

DATA & SCRAPING

Scrapy, Playwright, BeautifulSoup, PuppeteerStructured logging, scheduled jobs

TOOLS & PRACTICES

Git, GitHubCross-functional design support, branding

WORK EXPERIENCE

Data Entry Specialist · Graphic Design Assistant The Jannat International PVT.LTD <i>Travel agency · On-site · Banani, Dhaka-1213</i> ▸ Maintained passenger and booking records for an established travel agency across internal systems. ▸ Monitored and updated passenger statuses in real time during daily operations. ▸ Logged daily transactions and managed large datasets for reporting. ▸ Tracked incoming and outgoing passport movement for the team. ▸ Recorded employee information and maintained daily attendance logs. ▸ Doubled as Graphic Design Assistant — supported branding and visual communications across the organisation.	Sep 2024 — Feb 2025

SELECTED PROJECTS

Agent Seven — Portfolio Website PERSONAL · WEB · 2026

Classified-dossier themed single-page portfolio built with Next.js 16 and React 19, featuring an interactive 3D Rubik's-cube hero (Three.js + react-three-fiber), image carousel, project dossiers, a skills matrix, and three browser labs (cipher puzzle, packet-sniffing canvas game, asymmetric co-op). Deployed on Vercel with full TypeScript and framer-motion transitions.

BUCC Study Corner — Peer Learning Hub FULL-STACK · MERN · 2026

Self-serve learning portal for BRAC University CSE students — browse curated educational videos by category, with a secure admin portal that ingests new links directly into MongoDB without redeployes. Responsive React + Node / Express stack, modular layout optimised for serverless hosting.

etestpaper.net Question Bank Scraper PYTHON · SCRAPING · 2026

Login-aware Scrapy + Playwright pipeline that pulls MCQ and written-question records from etestpaper.net and writes them to PostgreSQL. Handles authenticated sessions, JS-rendered pages, and minor layout changes without breaking the run.

Source: github.com/SadatanamAs/etestpaper-scraper

Gmail Inbox Scraper PYTHON · PLAYWRIGHT · 2026

Local-only Playwright tool that drives the live Gmail web UI in a headless browser and exports sender, subject, date, and preview for every inbox message as structured output. No API keys, no third-party access — user runs it against their own account.

Quizzy — Customisable Quiz Platform MOBILE · FLUTTER · 2026

Cross-platform Flutter quiz app with GetX for state management, routing, and dependency injection. Customisable question banks and a polished quiz flow that feels professional rather than off-the-shelf.
